Senior Engineering Geologist
DIRWM, Regional Planning Branch*

*Scott D. Woodland, P.E.
Supervising Engineer
DIRWM, Lead Regional Coordinator*

How does DWR support IRWM?

- Financial Assistance
 - IRWM grants have helped in IRWM plan development
 - More than 550 IRWM projects across the state
- Regional Partnerships
 - Provides Technical Support Services
 - Access to Facilitation Services
 - Assistance through IRWM workshops and conferences
 - Management of DWR's Regional Coordination Program

Regional Partnership Program

PUBLIC SAFETY

ENVIRONMENTAL STEWARDSHIP

ECONOMIC STABILITY

Regional Partnership Program

- Technical support services are available to help guide water management decisions.
- Facilitation support services help to develop, foster and build collaboration among diverse interests and jurisdictions.
- Conferences and seminars are available to support exchange of ideas, promote public learning, share lessons learned, and promote best practices.

Technical Support Services

- Technical Support Services helps water management groups address pivotal IRWM issues
- The program provides technical assistance including IRWM planning and implementation
 - Broader than just IRWM

Technical Services Offered

- Water Management, Engineering, and Environmental Activities
- Modeling and Data Management
- Geotechnical, Geophysical, Hydrologic, and Hydrogeologic Investigations

Water management groups engaged in activities that are consistent with integrated water management should work with your Regional Service Representative (RSR) to prepare a request for support.

Facilitation Support Services

- The Facilitation Support Services program connects regional water management groups with professional facilitators to:
 - Address pivotal IRWM issues
 - Foster discussions among diverse interests and jurisdictions

Facilitation Services Offered

- Stakeholder identification and outreach
- Stakeholder assessment
- Stakeholder liaison and mediation
- Meeting facilitation

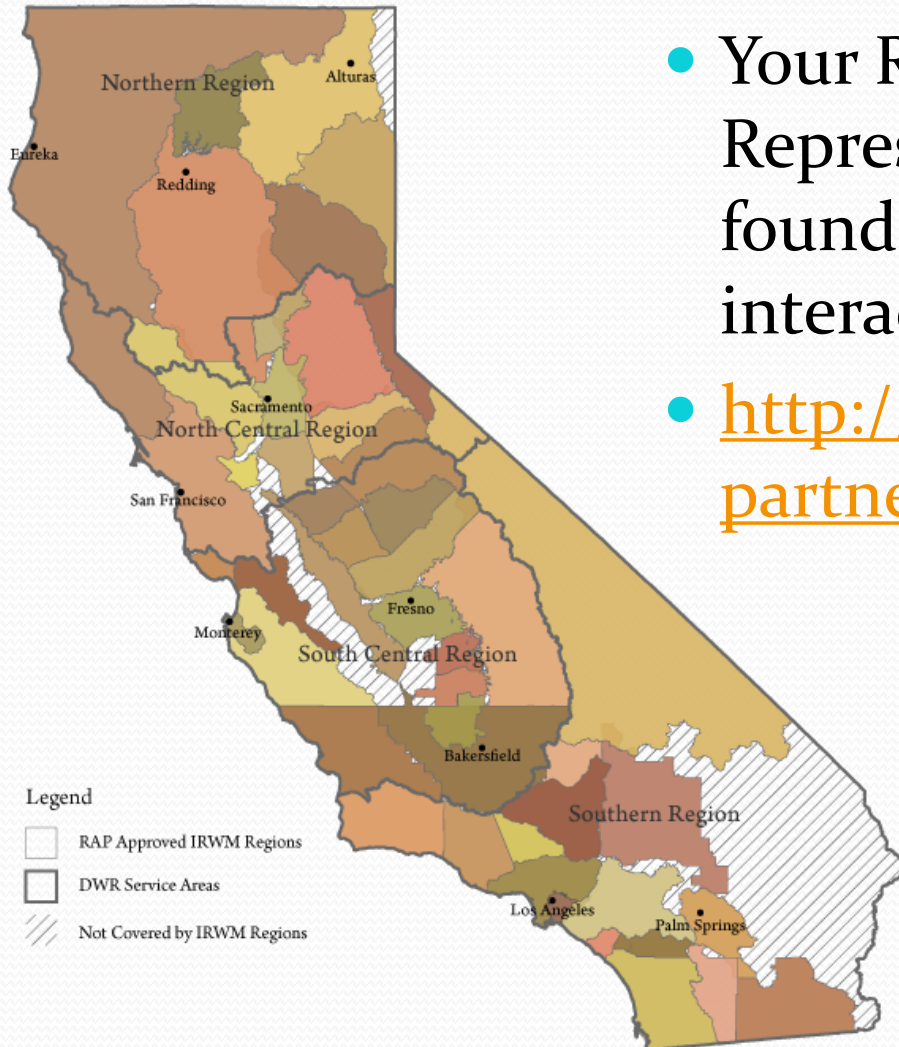

Facilitation Services Eligibility

- Water management groups must meet the following four minimum eligibility requirements to qualify for the program:
 - Identify a clear and defined need for professional facilitation support services
 - Demonstrate commitment to work collaboratively with others to develop, improve or implement an IRWM plan, GWMP, or other appropriate project or goal
 - Demonstrate commitment to meet regularly and work diligently toward clear, defined goals
 - Commit to providing logistical and administrative support
- Submit a completed application with assistance of your RSR

Regional Service Representative

- Your Regional Service Representative (RSR) can be found using an online interactive map
- http://www.water.ca.gov/irwm/partnership/contact_locator.cfm

Regional Coordination

PUBLIC SAFETY

ENVIRONMENTAL STEWARDSHIP

ECONOMIC STABILITY

Regional Coordination Vision

- The Regional Coordinators provide consistent messages to DWR water management partners and stakeholders in an efficient and timely manner to foster collaboration.

Regional Coordination

- The Regional Coordination Program
 - Provides a customer interface independent of DWR's traditional programs and organizational boundaries
 - Allows interested parties to solicit information and guidance, and participate in DWR programs in an efficient manner
 - Serves as the primary points of contact and ensure consistent messaging and service

Regional Coordination Benefits

- Improved outreach
- Consistent messaging
- Designated regional point of contact
- Streamlined communication
- Enhanced understanding of programs and their interrelationships

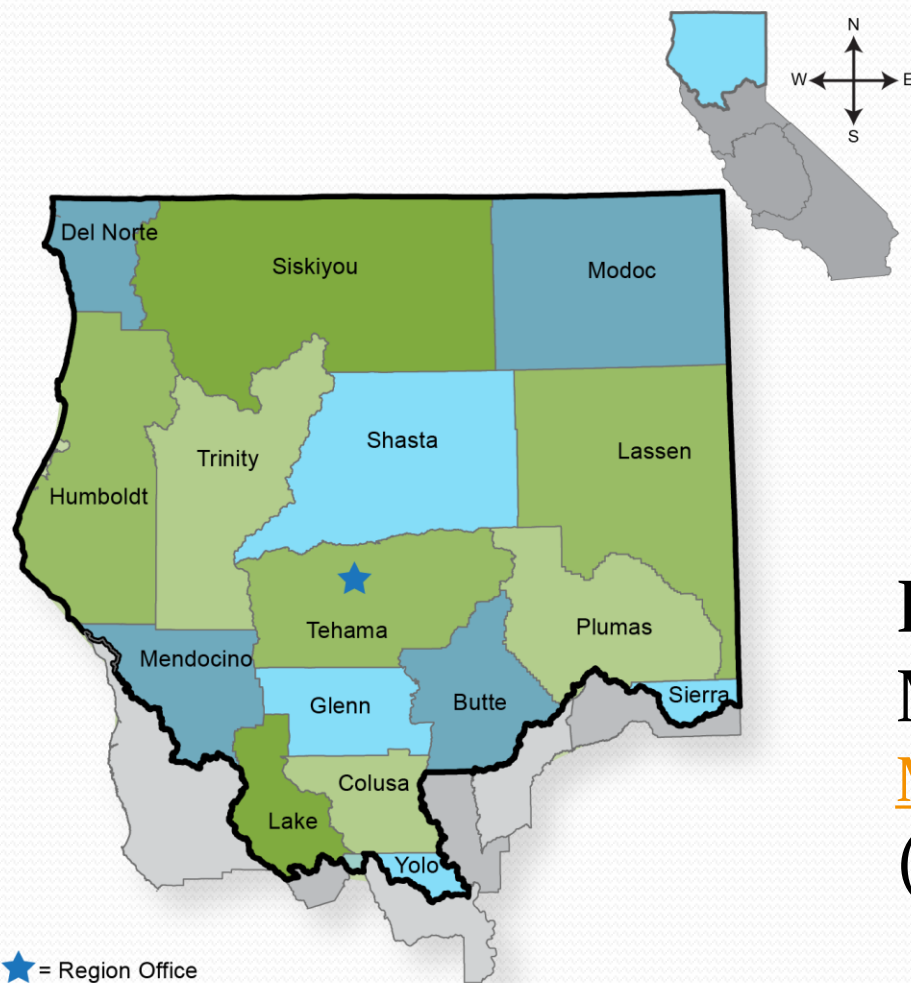

How can the Regional Coordination Program work for me?

- You can contact your Regional Coordinator for updates and high-level technical summaries on relevant programs and projects within your region. Regional Coordinators are your first point of contact for information from DWR.
